

Labeling & Nutrition

Labeling and Nutrition Services

Mérieux NutriSciences understands food and nutrition labeling regulations and the repercussions of a mislabeled product. Mislabeled products can cause problems for a brand in the form of a recall, brand negativity and risks to consumer’s health.

Label Compliance Services	
Nutrition Label Services	Compliant Nutrition Facts creation by laboratory analysis, database analysis and customized approaches for the North American market.
Food Label Compliance Reviews	Full compliance reviews and translation against federal regulations to reduce risk. US, Canada, Mexico and support for 60+ international countries.
Food & Nutrition label Development	Development of regulatory complaint labels for the five mandatory elements of a food label: Statement of Identity, Net Contents, Nutrition Facts Panel, Ingredient Statements and Allergen Declarations, and Place of Business.
Label Claim Compliance	Confirmation of label claims or development of complaint label claims based on formula, ingredients and regulations.
Pet Food Label Compliance Reviews	Full compliance reviews against AAFCO pet food standards
Supplement Labeling Services	Creation or review of Supplement Facts panel for FDA compliance as well as complete label review services for food supplement labels.
Menu Labeling Services	We will calculate nutrition data for menu items from recipes and ingredient specifications using nutrition database software or lab analysis.
